## MAKING WAR ON DISEASE MENACE

American Red Cross Announces Budget of \$48,200,000 For Current Year.

NEW DISASTER RELIEF PLAN

Continuance of Heavy Work Abroad Deemed Necessary to Protect United States-\$21,000,000 Less Than Last Year.

A program of relief and service toward which appropriations of \$48.-200,000 have been made has been out-Uned for the American Red Cross for the fiscal year, July 1, 1920, to July 1, 1921, according to official announcement by national headquarters of the organization at Washington. The figures for 1920-21 are \$21,000,000 below those of 1919-20, in which \$69,400,000

Important among the items of the budget for the present year is the appropriation of \$31,500,000 for relief in fereign lands, which includes \$11,000,-000 in purchased supplies on hand and | not distributed.

·Must Protect United States. This will enable the American Red Cross to continue its humanitarian effort to aid stricken peoples to re-estab-

lish themselves, to fight the disease epidemics which threaten many countries and to efface largely the remaining traces of the blight left by the World War. It is regarded as social as well as physical sanitation on a large scale that will have a direct bearing on future conditions in America.

Central Europe, the chief sufferer ruln. Typhus decreased much during the summer months where last winter it had its greatest stronghold, but physicinns who investigated the situation at the behest of the League of Red Cross Societies have given their unqualified opinion that this coming winter will see a recurrence on an unprecedented scale. The Red Cross feels it must continue preventive measures abroad to keep this and other deadly maladles from the United States.

Millions for Work at Home. When the disease was sweeping Central Europe last winter the American Red Cross, with the aid of the governments of afflicted nations, undertook the fight against it. Hospitals were established wherever possible and food and clothing were distributed to the undernourished populations, who by reason of their undernourishment were easy prey to the epidemics. Where disorganization contributed last year to the great inroads made by the disease, by virtue of its knowledge of the disease and the presence of well established hospital centers, the American Red Cross this year will undertake the work with a new confidence.

Including the total of \$11,000,000 in supplies left from the last fiscal year, the \$31,500,000 is \$21,000,000 less than the expenditures for 1919-20. Appropriations for domestic activi-

ties total \$16,700,000. The largest item of this "home" budget is \$7,800,000 for civilian relief work. This includes service and assistance for families of soldlers, sailors and marines, and work incidental to disaster. Of the total appropriation for civilian relief, \$5,000,000 ta held in reserve for the carrying out of

Reduced Overhead Expense.

actual disaster relief.

The Red Cross invariably is the first thought of a community visited by calamity. With this in mind, it was determined by the Executive Committee in preparing the budget of 1919-20 to have a fixed reserve fund from which

For assistance to soldiers, saflors and marines in hospitals and in camps this year \$1,900,000 has been set aside. provement of health and prevention of disease throughout the United States during the current twelve months. The Red Cross is co-operating fully with the United States Health Junior Red Cross is doing much to spread among children the principles of sanitation. An appropriation of \$1,-000,000 has been made for developing the peace time program of the Red Cross by service to its chapters in all

The appropriation of \$48,200,000 ts exclusive of the local expenditures of the 3,000 or more chapters. Administration expenses this year will be \$1.800,000. Last year they

were \$2,300,000. +

for workers to come and ask you for a renewal of your membership. Send in your dollar to the pearest local chapter of the American Red Cross. Welcome the opportunity and privilege of repledging your fellowship by promptly answering the

### SETTLING PAYMENT WAR INDEMNITY

BRUSSELS, Dec. 18 .- Satisfactory progress is being made by the Gorman and allied economic experts in finding a basis for the payment of German war indemnity, it was announced today.

An allied sub-committee conferred with the Germans to obtain more specific details of certain German pro-

DOSEIN. It is understood that the Germans seek to pay most of the reparations with goods and with labor. Germany is ready to send large numbers of like workers into allied countries to perform inbor, it was said.

## Why So Many Exchanges? WHY are exchanges built at so many different points in the same city?" a subscriber asks. There are two basic reasons for multiplying

The pair of wires connecting your telephone runs right to your Central office. If there were only one central office in a big city the length of subscribers' lines to that single exchange would make the initial cost and the upkeep and repair cost prohibitive.

The other reason is technical. Every operator at a switchboard has to be within arm's length of all the numbers. She must be able to connect you with any number asked for. The reach of the normal operator limits the capacity of the switchboard to 10,000 lines. Hence, as the city grows, new exchanges must be built.

These are the fundamental reasons for multiexchange development.
